Church Building price as shown with R30 roof insulation and 6 wall insulation included is:

\$ 73,500 plus taxes, labor and concrete not included. Church Building size 7000 SF = \$ 10.50 per square foot, no taxes included.

Labor budget only ( not an actual quote – budget only ) \$ 55-60,000 = 8.50 psf +- budget not an actual quote

Labor is not by Wright, would be direct with erector, hired by contractor or church direct.

Entire project cost budget only, minimum for complete church building job is \$ 95.00 psf ( all depends on plans, site, finishes, details ). This is \$ 475k for 5000sf or 665k for 7000 size.

Wright has associates who will be glad to work with you to get plans ready for permit, provide engineering, architectural plans, or complete turnkey construction. Many things to consider to get exact pricing.
